LESSONS OF CLIMATE RESILIENCE IN NEW YORK CITY

What can cities do to become stronger and more resilient in the face of climate change? This panel will provide a perspective on how urban areas can prepare for extreme weather events, and protect critical infrastructure and communities from harmful impacts.

Wednesday, October 19, 2016

6:00 to 7:15 pm (Reception to follow)

Low Library, Rotunda, Columbia University

RSVP required: earth.columbia.edu/events

MODERATOR:

Steven Cohen, Executive Director, The Earth Institute and Professor of Practice, School of International and Public Affairs
